Dear Sir or Madam

The European REACH-Regulation (EG) No. 1907/2006 requires informing the customer if products contain one or more "Substances of Very High Concern" (SVHC in short) from the European Chemicals Agency (ECHA) "Candidate List" (Article 33 / 1) in a concentration of > 0.1 mass percent.

According to REACH Article 7 the Manufacturers and importers of the substances have a general obligation to submit a registration of SVHC to the ECHA.

Acc. to REACH Article 33 Stabilus as a supplier of products has to inform our customers if a product complies with REACH Article 57 and contains a substance listed on the SVHC candidate list in a concentration of > 0.1 mass percent (acc. to REACH Article 59.1)

With reference to the current "Candidate List" available at ECHA, we want to inform you, that none of our products delivered to you contain SVHC > 0.1 mass percent.

All information on REACH conformity is to the best of our knowledge at the present time and is based on current information from our suppliers.

If you need any further information or have any additional questions, we will be pleased to assist you.

Yours sincerely

STABILUS GMBH
